

# ENERGEX<sup>®</sup> MC-PCS

## A **New** Addition to our MC Family

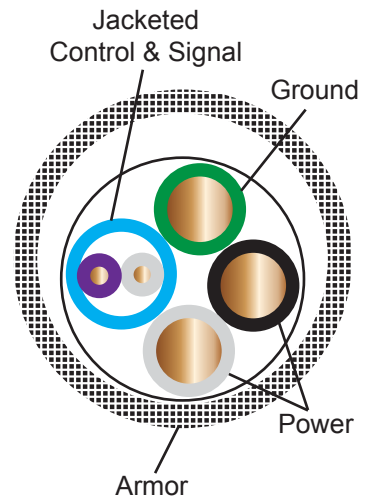

Specifically designed for use in LED and fluorescent lighting dimming and control applications.

### Efficient

Combines power, lighting, control and signal cables - all under one armor, reducing installation costs and time.

### Safe

- For use as Type MC cable in accordance with NEC Article 330. Meets the requirements of NEC Article 725.136 for separation of power conductors and Class 1, 2, or 3 control and signal conductors.
- May be installed exposed, concealed or in cable tray and may be run in spaces used for environmental air handling in accordance with NEC Article 300.22(C).
- UL file E-47409
